

THE BLAIRMORE ENTERPRISE

VOL. XVI, NO. 80.

THE BLAIRMORE ENTERPRISE THURSDAY, JULY 23, 1925.

\$2.00 PER ANNUM

Mr. and Mrs. Peter Montalbetti were in Calgary on Tuesday and registered at the Palliser hotel, having motored over the Banff-Windermere trail.

A large sign directing tourists to the Blairmore Free Camp, is being erected on the southeast corner of Fifth Avenue and Victoria Street by the local Board of Trade. Most signs erected by the Board in the past have been destroyed, and the police are on the watch for any person who will attempt to damage this sign. Nothing less than a term of imprisonment will be meted out.

ST. LUKE'S CHURCH

Rev. H. L. Nobbs will conduct services on Sunday the 26th of July as follows: Matins and Holy Communion at 11 a.m.

Her Excellency the Lady Byng of Vimy will spend two weeks at Invermere, at the residence of Mr. Randolph Bruce.

The marriage of Mr. Ross Powell, the watch for any person who will attempt to damage this sign. Nothing less than a term of imprisonment will be meted out.

McCABE MEETS McDONALD AT OPERA HOUSE SATURDAY

Considerable interest is centered in the boxing contest to be staged at the local opera house on Saturday evening, when Eynie McCabe, of Edmonton, will meet Roddy McDonald, of Coleman, in a twelve-round go to decide the middleweight championship of Western Canada.

Both boys will weigh in at 100 pounds.

Two good preliminaries will be featured, a six-round bout between Dick Stafford, of Blairmore, and Mike Youchouck, of Coleman; and a four-round bout between Young Wilson, of Calgary, and Jack McAndrew, of Blairmore.

The preliminaries start promptly at 7 p.m., and it is planned to finish the main bout in time for the opening of the carnival programme at the arena.

Mr. Munton, of Edmonton, was visiting here during the week with his son, Constable Munton of the A.P.P. force.

Rev. W. H. Irwin has entered upon his duties as pastor of the Mapled United church, and preached his first sermon there on Sunday, July 5th. Mr. Irwin has been prominent in Alberta since 1906, when he accepted his first station at Staveland. He later moved to Bellevue, which pulpit he filled very acceptably from 1911 to 1914. Since that time he has been stationed at Athabasca, Edson and Edmonton.

The report circulated to the effect that Mr. Arthur J. Kelly, former principal of the Bellevue public school, had accepted the principalship of the Blairmore school, is false. Mr. Kelly has been approached by certain members of the Board to take this position, but has refused, stating that "under no consideration would he accept same." It might be stated right here that the approach to Mr. Kelly was not made with the knowledge of the full board.

BIG SUMMER CARNIVAL OPENS TOMORROW EVENING

The whole population of the Crow's Nest Pass is marking time today, all ready for the word "Go!" tomorrow evening, when the Elks' first big Summer Carnival will be set in motion.

"All the fun of the circus" is no exaggeration. There will be fun and frolic for everyone. Dazzling decorations, entertaining devices of every description, mock courts and mock everything will be featured.

The dancing pavilion has been completed and no doubt will be the leading attraction during the two biggest nights in Blairmore's history. If you're not there on time and all the time you will be a sorry loser.

Everyone looks forward to winning the big prize—fully equipped Chevrolet 400 Touring Car. Some are so confident they have gone so far as to build garages and others will bring a four-gallon can of gasoline to the arena with them on Saturday night to carry their car away on its own steam.

The big arena has been very tastefully decorated for the occasion. Tapered torches are asked to have all rough spots removed from the poles of their cloths as so not to damage the glossy surface of the pavilion. In the courts of Elks' justice penalties will be meted out for such offences as smiling too much, frowning too much, spending money where necessary, admiring another person's sweetheart, rolled stockings, etc. The police department will be under the superintendence of Sgt. "Tiny" Garrison, and those who refuse to obey the officers will be meted in the good old kangaroo style.

Bring yourself and your family or your friends to the carnival tomorrow for this is necessary to help put over the big enterprise. Be on deck sharp at 7 on Friday and Saturday evenings. Package for hundreds of cars has been arranged and a special constable will be engaged to look after your car if you so desire and are willing to pay the price.

Now, here goes: "Last call! Everybody on deck for the First Big Elks' Summer Carnival."

Municipal districts in British Columbia are receiving a share of auto license fees paid into the provincial treasury. This is to be used in bettering the highways through the municipalities, for the upkeep of which the municipality is held responsible.

It is claimed on good authority that, next to a monkey wrench, a hairpin is the most useful invention. A woman can open a time lock burglar-proof safe with a measly little hairpin. They use them to scratch their heads, button their shoes, pick their teeth, punch bugs out of cracks, run into cakes to see if they are sufficiently baked, clean their finger nails, fasten up stray bangs, pick out nuts, lift stoveclids, fasten on buttons, and a variety of other things.

The largest concentrated deposit of high grade commercial coal in the world lies on the border line of Alberta and British Columbia, at the little mining settlement of Corbin. The mammoth deposit, as it is called by geologists, has a thickness averaging 450 feet. This is the report just made by Mr. G. Watkins-Evans, special engineer, who investigated the property for the Corbin Coals, Limited, a company incorporated in Canada, but financed by Spokane interests. Mr. Evans, who is general manager of the company, was in Blairmore on Friday last and registered at the Greenhill hotel. Active development of the property is in progress and considerable shipping has been done. The deposit contains 150 million tons of commercial coal. A briquetting plant will likely be built at Corbin.

NO BLAIRMORE TEACHER NEED APPLY

The following ad appeared in the daily press a few days ago: "Farmers of Alberta, attention! Rain maker needs a school, just arrived from California. Professional Alberta certificate, registered February 1918. Salary \$5000 per year."

F. W. Godsal, at present living in retirement at Victoria, but formerly one of the first ranchers in the Pincher Creek and Cowley districts, is a visitor to Alberta at the present time.

Mr. F. Wright, secretary-treasurer of the Town of Blairmore, will leave some time next month on a three or four months' holiday trip to England.

J. R. Gresham was summoned before Mayor McLeod on Tuesday morning last to answer to a charge of negligence while driving a car along the road to Bellevue, when another car going in the same direction as he, took the ditch instead of the road. J. E. Gillis appeared for Mr. Gresham, and upon his request the case was adjourned until next Wednesday at 10 a.m.

Small Deposits

Do not delay a savings deposit on account of its small size. Small regular deposits soon amount to a substantial sum. One dollar opens a savings account at any branch of the Union Bank.

WORLD HAPPENINGS
BRIEFLY TOLD

It is rumored that the Ontario Government is considering an increase in dues on timber cut in crown lands.

The national research council at Ottawa announced that A. B. McLean, of the University of Toronto, has been awarded one of three fellowships having a value of \$1,200.

Col. J. Obed Smith, former Canadian superintendent of emigration in London, has sailed for Canada. Col. Smith intends spending several months in the Dominion.

Right Hon. Austen Chamberlain, the foreign secretary, announced in the House of Commons that the British Government does not propose to send troops to Tangier, Morocco.

For the first time in six years, Toronto, Ont., during the month of June was free from motor fatalities. Since 1914, 42 persons were killed by automobiles during the month of June, seven in 1922 and seven in 1924.

According to immigration officials at Niagara Falls, Ont., 21 Canadian returned from the United States during June. In addition, there were 71 other nationalities came through to Canada. There were 196 rejections.

Hon. Dr. Forbes Godfrey, minister of health, has returned to Toronto from Geneva, where he investigated the work being done by Henri Spathinger with his tuberculosis serum. He says he was much impressed.

Prediction that England will be driven to nationalization of the coal mines "in order to save the mining industry" was made by the president of the conference of the Miners' Federation at Scarborough.

The Prince of Wales played the part of a heroic fireman at Katus, Rhodesia, when he assisted settlers in extinguishing a fire in a native wood and great children's house at the Rustic agricultural show. All of the children were rescued.

Urge Marines To Revolt

Red Propaganda Directed At British Fleet Visiting Norway

The arrival of a British fleet for a visit to Oslo was marked by intensive demonstration by Norwegian communists. Secret appeals were made to the bluejackets and the marines.

"Rise in revolt, rather than obey," was the slogan.

to make war on Russia," was one message floated in the face of the British tars by local communists.

The appearance of the inflammatory propaganda directed at the British fleet visiting Norway was resented deeply by the Norse Government as well as the British officers of the fleet.

Russia has objected to the presence of a British fleet in northern waters and this propaganda is taken to have been inspired by Moscow.

Victim Of X-ray Research

English Doctor Forced to Give Up Practice Is Dangerously Ill

Dr. T. H. Sanderson Wells, of Weymouth, an X-ray martyr, has had to give up practice and go into a London nursing home for an operation in which his life is at stake.

Throughout nearly the whole of his professional life, Dr. Wells has been handicapped by injuries he received in the early days of his career in experimental X-ray research, by which he was badly burned in the leg.

Dr. Wells is one of the best-known surgeons in this part of the country, but few have known of the intense pain and crippling disability which he suffered in recent years.

Constantinople Hears U.S. Signals Clear transmission of signals to Constantinople, a distance of more than 5,000 miles, is the latest accomplishment of a short wave radio set, with which the navy department is experimenting at Lakehurst, N.J. This set previously has been heard at Honolulu about 5,000 miles distant.

Was Well Helped

Mother—Where you good at the party?

Six-Year-Old—Yes.

Mother—You didn't ask twice for anything at the table?

Six-Year-Old—No, I didn't. I asked once, and they didn't hear me, so I helped myself.

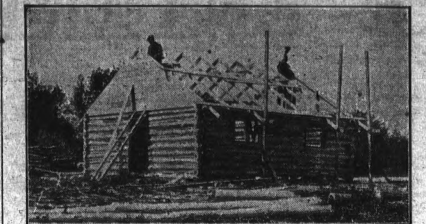

Thirty employees are constantly engaged in dusting the 9,000,000 books contained in the British Museum library.

South Africa has recently provided special air-mail postage stamps for use in the new Capetown to Durban services.

While stocks, seaweed jelly and chocolate were among the delicacies served at a recent luncheon of the Paris Zoological Society.

Settlers Build Their First Home

European settlers building their first home on the lands of the British Dominions Land Settlement Corporation, north of Vermilion, Alberta.

Remarkable Land Settlement Plan

Influential British Company to Assist Settlers and Promote Colonization

The Vermilion district in central Alberta is this summer the scene of a remarkable and most promising development in land settlement. The undertaking referred to is that of the British Dominions Land Settlement Corporation Limited, a powerful financial organization formed in London, England, for the express purpose, as its name implies, of promoting land colonization in the Overseas British Dominions and particularly in this Dominion of Canada. This company represents a new departure in the way of assisting agricultural families of small means who desire to establish themselves on the soil. Backed by millions of Old Country money, it provides the right kind of farmers with land on easy terms and aids them in equipping these farms and getting thoroughly established thereon.

The high character of the company is indicated by the personnel of its British directorate, which includes: The Duke of Sutherland, chairman; the Right Hon. Sir Newton Moore, K.C.M.G., formerly prime minister of western Australia; the Right Hon. Sir Arthur Griffith Boscawen, formerly minister of agriculture in the British cabinet; Sir Edward Mayville, chairman of the great Daimler Motor Car organization; Sir Robert Lynn, M.P.; Col. A. G. Cousins, O.B.E.; and Mr. Mervyn Brown. These names in themselves, furnish a guarantee of the standing of an organization which has for its object the use of British capital in assisting to develop and people the vacant spaces of the empire—an ideal which has seized the mind of the British people especially during the years which have succeeded the war.

In the United Kingdom it is more than ever recognized that the future of the Mother Country lies in the growth of the outlying parts of the empire. The Canadian board of the corporation is constituted as follows: Mr. Mervyn Brown, chairman; Mr. Robert McKay, of Allan, Kilman & McKay, Winnipeg; Mr. W. H. Carter, of Carter, Hall & Aldinger, Winnipeg; Mr. W. P. Dutton, Winnipeg; and Mr. Isaac Pittblado, K.C., as special counsel. Mr. W. T. Badger is the British Dominions Corporation's sales agent at fair prices and on fifteen-year terms, with no cash for three years except interest and taxes, the principal to be discharged during the remaining twenty years of the period. Besides giving land on such reasonable conditions, the corporation advances to settlers, having no livestock and equipment, two dollars for every one dollar put up by the settler for these necessities.

For the money thus advanced the corporation takes back a five-year chattel mortgage on which only interest is payable for two years, thus leaving the principal to be discharged in the third, fourth and fifth years of the loan.

To be acceptable to the corporation, the farmer must have a family or at least be a married man. The corporation is cutting and stacking logs for sale to settlers on five years' credit, thus making it easy for the newcomer to erect a shelter for his family without delay. Where it appears necessary, the corporation advances even food for the family and feed for the animals during the first months of occupation. Supervisors in the employment of the company constantly circulate amongst the settlers, keeping in touch with their needs and offering advice and assistance wherever such is called for. It will thus be seen that the company offers an exceptional opportunity to (1) the married farmer who possesses livestock and equipment and wishes to have a farm of his own; (2) to the married farmer who, owing to his present unfortunate location, has suffered from drought, floods or frost. While the British Dominions Corporation desires later on to extend its operations to other parts of western Canada, it has chosen the fertile section of central Alberta as the scene of its first undertaking. In this area it has become the outright owner of 262,000 acres of land. Of this land, 150,000 acres consist of south-

tered sections, half-sections and quarter-sections lying between the Vermilion and Saskatchewan Rivers with the town of Vermilion as the ebb-distributing point. The rest of the company's holdings lie west and north of Edmonton. Driving north from Vermilion through the main east block, one encounters a series of rolling hills and valleys, the hills green with verdure and dotted with darker green clumps of trees and brushwood. The landscape is interspersed with small lakes and is thus an exceptionally attractive one. The prevailing soil is a black loam with a clay sub-soil. The area is served on the south and north by two lines of the Canadian National Railways. As a result of the influx of settlers the Canadian National Railways is extending its St. Paul de Metis branch across the northern part of the company's property, and the Canadian Pacific Railway is extending its Lloydminster branch towards the west of the company's lands.

English Boy Has Peculiar Skin

Any Marks Show Clearly For Ten Of Fifteen Minutes

His unusual skin will always prove means of identification for a Dockhead schoolboy. The skin appears quite normal in color and texture, the same as that of other people, but it has the strange property of being able to retain for ten or fifteen minutes any mark made on it by a light pressure or any word scrawled by a finger. An examining doctor said the boy had a very peculiar skin which, when slightly stroked by the finger, showed definite marks. It was, he said, possible to write one's name on the boy's skin and the marks would remain for 10 or 15 minutes. A very slight caress would show "tremendous results." There were various explanations of this condition, one being that the person suffering from that condition was "one skin short."

Substitute For Glass

Latest Chemical Discovery Is Much More Transparent

The latest chemical discovery is a substitute for glass, made from purely organic materials. It seems to have many attractive properties, being much stronger than glass, so that it can be worked on a lathe into all sorts of required shapes. It can be colored for decorative purposes, but the most interesting thing about it is that its refractive index can be varied over a wide range, making it very suitable for optical instruments and capable of replacing very expensive kinds of glass in telescopes and microscopes. Another interesting optical point is that it appears to be much more transparent than glass to the invisible rays—ultra-violet and infra-red light.

Planning Antarctic Flight

Australian Explorer Hopes to Make Continuous Photographic Map

An Antarctic flight is planned by Capt. G. H. Wilkins, who recently returned from an eighteen months' exploration tour in northern Australia. The plan is to explore the coastline from King Edward the Seventh Land, south of New Zealand, to Graham's Land, south of Cape Horn. He hopes to make a continuous photographic map. He explains that the work is a preliminary to the inauguration of a comprehensive international scheme of Antarctic meteorology. Captain Wilkins, who was one of Australia's official photographers during the war, has distinguished himself by many daring feats.

Will Build Big Flour Mill

Spillers Overseas Limited announces that they will spend \$800,000 in the construction of a flour mill in Calgary, exclusive of machinery and other equipment. Work will be started as soon as possible, so P. Lloyd Tanner, managing director states.

Shorthand is one of the arts that have never been lost. A version was recorded in Ptolemy before the Greeks called it a people, and possibly also in Babylon.

Discovers Strange Race

Explorer Finds White Indians in Jungles of Brazil

White Indians who evaded no surprise at seeing a hydroplane or other modern things, although armed with only bows and poison arrows and living in a primitive state, are among things Dr. Alexander Hamilton Rice has seen in Brazil.

On his return from his seventh expedition to Brazilian jungles, he told about finding the Indians at the headwaters of the Parana River, 75 miles distant from the headwaters of the Orinoco. Their faces were streaked with pigment, but they impressed the explorer as being undeniably white.

The Indians are undervalued and speak a distinct language of their own.

"They move in and out between the trees like 'aguars' without making a sound or causing 'a rustle of the leaves,'" Dr. Rice said.

They refuse to eat meat and subsist entirely on plants and bananas.

Mistakes in London Statues

Many Peculiar Errors Have Only Been Recently Noted

Peculiar mistakes in London's statues have been commented upon in a recent magazine article which notes the following facts: "The statue of the Duke of Wellington at the Royal Exchange has neither spurs nor stirrups. Gladstone, in the house, has a seam from one trouser leg, an oversight which fouls the best traditions of Saville Row. Cromwell, outside the House of Commons, is wearing spurs upside down." And also notes: "What is the archer decorating the west side of the new County Hall doing with his bow in the wrong hand? Why does the soldier in the war memorial outside the Royal Exchange perpetually offend peace regulations by standing at ease with his hands covering the top of his rifle barrel? Why does the Prince Consort in Holborn Circus, raise his hat in salute—a thing no self-respecting field marshal ever did."

An Attractive Version of the Over-

Lace edgings and narrow tucks elaborate the tailored blouses of today. One cannot have too many attractive blouses to wear with separate skirts, thus creating the smartest two-piece frocks. The model pictured here was made of white crepe de-chine with groups of narrow tucks in the front and back and opens all the way down the centre front. The round collar collar is becoming and the full-length sleeves are finished with a tailored cuff. The pattern is perforated for short sleeves and provides an attractive cuff. The hip and waist may be omitted and the blouse tucked under the skirt-band in regulation skirt-waist style. Sizes 34, 36, 38, 40 and 42 inches bust. Blue. Best material 3 1/4 yards of 36-inch, or 2 1/4 yards of 40-inch material. Price 30 cents.

Our Fashion Book, illustrating the newest and most practical styles, will be of interest to every dressmaker. Each copy includes one coupon good for five cents in the purchase of any pattern.

Canada's Fish Day

Association Decides On Last Wednesday in October of Each Year

By a resolution passed at the concluding session of the annual meeting of the Canadian Fisheries Association, the last Wednesday of October of each year will henceforth be known as Canada's fish day. Previously the annual fish day has been set by the association and selected at times only a few days before, giving little time for dealers to prepare for the additional business.

The resolution adopted, orders that co-operation with calendar makers be sought with a view to having the day marked in conformity with other feast days on the calendars of this country.

Another important resolution called for an application to the department of marine and fisheries for the constitution of a separate department to conduct the affairs of the fisheries, with a competent man at its head as deputy minister.

Left Without A Home

John D. Rockefeller, one of the World's Richest Men, Is New Homeless

Sales by John D. Rockefeller, Sr. of his estates at Pocantico Hills, and at Lakewood, N.J., of his town house and garage in New York, and of his winter home in Ormand, Fla. to his son, John D. Rockefeller, Jr., for a price "in excess of \$3,000,000," was announced recently.

The sale leaves one of the world's wealthiest men without a home of his own.

It also relieves John D., Jr., of the payment of heavy inheritance taxes which would be levied if the son were to come into possession of the homes after his father's death, but a representative of the family denied that the object of the deal was to evade the inheritance tax.

Find Primitive Human Skull

Discovery of Great Scientific Value Is Made Near Tiberias

An interesting discovery, in view of the anti-evolution trial in the United States, was made recently in a cave at Taghba, near Tiberias, when a primitive human skull was unearthed among Mousterian flint deposits.

The skull, discovered by a British archaeologist and an Oxford student, is characterized by a prodigious development of the supraorbital prominence and depressed forehead, as in the chimpanzee. It conforms slightly with the Neanderthal European type, not previously found on the continent of Asia. Prof. Garvand, director of the British School of Archaeology, Jerusalem, who witnessed the discovery, confirmed its scientific value.

Among the exhibits in the chemical section of the Wembley exhibition is a small tube of insulin, to obtain which 1,000 oxen had to be slaughtered.

Answer To Last Week's Puzzle

Preparing For Eventualities

France to Regulate All Resources In Case of New War

One of the principles of the new national defence plan which Premier Briand of France has sent to the Chamber of Deputies is the right to requisition all the country's resources, not only material, but intellectual and scientific. This scheme of national organization has been prepared by the council of the national defence, presided over by M. Boncour, and is designed to outline in advance what can be done automatically if, and when, war is declared, in order to avoid costly mistakes and confusion such as arose in the last war.

The plan deals with the distribution of labor and war materials and prescribes systems for transportation and the manufacture of munitions.

Plan Pageant Of Canada

May Be Held In Montreal in 1927 On Occasion Of Canada's Diamond Jubilee

Plans are going forward for a pageant of Canada to take place in Montreal in 1927 to commemorate the diamond jubilee of Confederation.

It is understood that a number of prominent executives, including the chief executives of both railways and Hon. L. W. David, provincial secretary, are favorable to the scheme, and if plans reach any definite stage the Prince of Wales will be asked to open the pageant.

B.C. Mining

Mining circles in the Slokan district in British Columbia are elated over the fact that ore has been struck at the White Water mine, at a depth of 1,600 feet, as this proves that certain ore bodies in that region go down deeper than hitherto proved.

Regina Civic Improvements

The city of Regina will spend \$47,000 during the year on additions and extensions to public works, including the installation of another electric light and power unit, comprising a complete new turbine generator to cost \$150,000.

Snow About 5,000 Years Ago

Scientists say that the snow which was solidified to form the icebergs now floating in the north Atlantic fell in Greenland 5,000 years ago.

A Romance of the Spanish Main
CAPTAIN BLOOD
by **RAFAEL SABATINI**

Copyrighted, 1922, by Rafael Sabatini.
"CAPTAIN BLOOD," a Whirlwind picture with J. Warren Kerrigan
in the title role, is an adaptation of this thrilling novel.

CHAPTER XXVIII.—Continued

"You are no longer that," she said, and strove to smile, "but I am not," he answered. "I think there is no more to be said, unless it be to add the assurance that Lord Julian Wade has also nothing to apprehend from me. That, no doubt, will be the assurance that your peace of mind requires."

"For your own sake—yes. But for your own sake only. I would not have you do anything mean or dishonouring."

"Thief and pirate, though I be," she clenched her hand, and made a little gesture of despair and impatience.

"Will you never forgive me those words?"

"I'm finding it a little hard, I confess. But what does it matter, when all is said?"

"Her clear, hazel eyes considered him a moment fastidiously. Then she put out her hand again."

"I am going, Captain Blood. Since you are so generous to my uncle, I shall be returning to Barbadoes with him. We are not likely to meet again—ever. It is impossible that we should part friends." Once I wronged you, I know. And I have said that I am sorry. Won't you won't you say 'good-bye'?"

"He took the hand she proffered. Reluctantly, he spoke, his eyes sombre, wistfully considering her."

"You are returning to Barbadoes?" he said slowly. "Will Lord Julian be going with you?"

"Why do you ask me that?" she countered him quite fearfully.

"Sure, now, didn't he give you my message, or did he bungle it?"

"No. He didn't bungle it. He gave it to me on your words."

"I owe it to you that I should say this by way of amend. I judged too harshly where it was a presumption to judge at all."

"He was still holding her hand. "And Lord Julian, then?" he asked, his eyes watching her, bright as sapphires in the copper-coloured face."

"Lord Julian will no doubt be going home to England. There is nothing more for him to do out here."

"But didn't he ask you to go with him?"

"He did. I forgive you the importunate."

"A wild hope leapt to life within him. "And you?" Glory be, ye'll not be telling me ye've refused to become my lady, when—"

WORKING GIRL'S EXPERIENCE

Read How She Found Help in Lydia E. Pinkham's Vegetable Compound

"Amherst, Ontario. "I must write and tell you my experience with your medicine. I was working at the factory for three years and became so run-down that I used to take weak pills and would be at home at least one day each week. I was treated by the doctor for months, but it didn't seem to do me any good. I was told to take a rest, but was unable to, and kept on getting worse. I was troubled mostly with my periods. I would sometimes pass three months, and when it came it would last around two weeks, and I would have such painful cramps in my right side that I could hardly walk. I am only 19 years of age and weigh 115 pounds now, and before taking the Vegetable Compound I was about 105 pounds. I was sickly for two years and some of my friends told me about Lydia E. Pinkham's Vegetable Compound, and when I had taken a bottle of it I felt a change. My mother has been taking it for a different ailment but found it very satisfactory. I am willing to tell friends about the medicine and to answer letters I receive. I am Lydia E. Pinkham's Compound help."

"A day out each week shows in the pay envelope. If you are troubled with some weakness, indicated by a run-down condition, three months' rest will do you fairly. Let Lydia E. Pinkham's Compound help you."

INECTO RAPID
The world's best hair tonic. Will restore grey hair to its natural color in 15 minutes. Small size \$2.50 by mail. Double size \$4.50 by mail.

The W. T. Pender Stores Limited
Phone M. 2374-5, 129 Young St.
TORONTO, ONTARIO

"Sir, I am not concerned to hear your reasons," his Lordship interrupted harshly. "I am on the point of sailing and I have not the time. The Governor will hear you and no doubt deal justly by you." He waved to Major Mallard, and Bishop, a crumpled, broken man, allowed himself to be led away.

To Lord Julian, who went with him, since none deterred him, Bishop expressed himself when presently he had sufficiently recovered.

"This is a serious item to the account of that accursed Blood," he said through his teeth. "My God, what a reckoning there will be when we meet!"

Major Mallard turned away his face that he might conceal his smile, and without further words led him a prisoner to the Governor's house that so long had been Colonel Bishop's own residence. He was left to wait under guard in the hall, whilst Major Mallard went about to announce him.

Miss Bishop was still with Peter Blood when Major Mallard entered. His announcement startled them both.

"You will be careful with him, you will spare him all you can for my sake, Peter," she pleaded.

"To be sure I will," said Blood, "but I'm afraid the circumstances won't."

"She smiled rather, escaping into the garden, and Major Mallard fetched the Colonel."

"His Excellency, the Governor, will see you now," said he, and threw wide the door.

Colonel Bishop staggered in and stood staring at the man of whom nothing was visible but the top of a carefully curled, black head. Then this head was raised, and a pair of blue eyes solemnly regarded the prisoner.

Colonel Bishop made a noise in his throat, and stared into the face of His Excellency, the Deputy-Governor of Jamaica, which was the face of the man he had been hunting in Tortuga to his present undoing.

The situation was best expressed to Lord Willoughby by Van der Kuylen as the pair stepped about the Admiral's flagship.

"It is very foolish!" he said, his blue eyes twinkling. "Captain Blood is fond of booty—you remember the apple blossoms. So? Ha, ha!"

The End.

The Family Physician.—The good doctor is always worth his fee. But it is not always possible to get a doctor just when you want him. In such cases, common sense suggests the use of reliable home remedies, such as Dr. Thomas' Electric Oil, which is wonderfully effective in easing inflammatory pains and healing cuts, scratches, bruises and sprains. The presence of this remedy in the family medicine chest saves many a fee.

A Growing Industry

British Columbia Making Business of Raising Vegetable Seed

Growing of vegetable seeds is becoming a well recognized business in British Columbia. In 1924 they grew the following quantities of vegetable seeds:

Bean beans, 10,390 pounds; pole beans, 194 pounds; earleaf runner beans, 691 pounds; broad beans, 1,555 pounds; broccoli, 108 pounds; Brussels sprouts, 10 pounds; sweet corn, 5,010 pounds; onions, 575 pounds; parsnips, 5 pounds; garden peas, 25,390 pounds; cauliflowers, 9,200 pounds; radishes, 498 pounds; mangold seed, 4,602 pounds.—M. G. B.

"Corps cannot exist when Holloway's Corn Remover is applied to them, because it goes to the root and kills the growth."

The golden rule should work both ways; but most men who are willing to do as they would be done by want to be done by first.

Elephant beetles found in West Africa often weigh, when full grown, half a pound each.

After Shaving
Mix Mincard's with sweet oil and apply to the face. Wonderfully soothing.

HARD'S
"KING OF PAIN"
FOR RHEUMATISM

"But, my Lord—" began the Colonel.

Wallpaper For Eskimos
Moravian Mission Vaselet Carried Varied Cargo to Labrador. Wallpaper to decorate the huts of Indians and Eskimos in the frozen wastes of Labrador was included in the strange medley of goods which the little sailing ship Harmony took out with her on her latest voyage.

Captain Jackson, her commander, said that, among other commodities he was carrying dolls for the women, chairs and tables for the men, and a large quantity of brightly-colored tartan, which the Indians are very fond of using for clothes.

Harmony, a tiny vessel of 223 tons, owned by the Moravian Mission, to Labrador, is a small part of the mission regularly to cross the Atlantic. Two women, who were going out as missionaries, sailed in her.

"I am afraid they will find that the little Harmony rolls and tumbles a good deal," said Captain Jackson grimly. Sometimes, too, the vessel gets jammed in the ice for as long as a fortnight at a time.

Describing the hardships endured by dwellers in Labrador, Captain Jackson said that during the great influenza epidemic of 1919, 233 persons died in a village, the population of which is only 266.

Not a single man was left alive, and only a few women. In another village a little girl alone survived, her only companion being a wolf-dog.

When rescued she was cooking her last piece of blubber.

New Paint Stops Corrosion
Invention By English Chemist May Effect Great Saving

A new paint, which may stop the havoc of corrosion—which is estimated to cost this country £100,000,000 a year—has been invented by a chemist in the service of the South Staffs Metal Co. Company, England.

Years of patient research and experiment have resulted in the evolving of a formula for a bituminous paint which was found to possess the power to resist rusting.

Patents have been granted for the material to which it is applied and render it impervious to the effect of acids, gases, water and extremes of heat and cold.

When the new paint was applied to a steel plate, registering a heat of 725 degrees Fahrenheit it remained for months as fresh as on the day of application. Other patents had blistered off in five days at the most.

Practical test has proven that the paint "sees itself" into the metal and wood to which it is applied, is capable of expanding and contracting with it, thus avoiding cracking, and prevents corrosion almost indefinitely.

American Capital in Canada
The London Statist estimates that American business will invest \$700,000,000 in Canada during the year 1925. Should this be verified the capital of United States investments in Canada will approximate \$3,200,000,000 by the end of the year, which will be substantially greater than the total British investment.

Every street in Paris has been visited on foot by an American army officer and his daughter, aged 17.

Phy Starving Europe
A dispatch from Belgrade says that the hors d'oeuvre at the leading hotel consists of four pieces of tongue, a cone of ham, three slices of sausage, one sardine, one slice of cold veal, two slices of salmon, half an egg with mayonnaise, a slice of cold loaf, potato and meat salad, radishes, pickles and butter. After that, one begins on the meal.—Detroit Free Press.

Nothing as Good for Asthma. Asthma remedies come and go but every year the sales of the original Dr. J. B. Kallgren's Asthma Remedy grow greater and greater. No further evidence could be asked of its remarkable merit. It relieves. It is always of the same unvarying quality which the sufferer from asthma learns to know. Do not suit another attack, but get this splendid remedy today.

Buffalo Come Back
Because the buffalo has become partly domesticated and has been protected in government parks, the number in the United States has increased to 30,000. Thirty years ago there were not more than 1,000 on the American continent.

A LOVE EPIC OF THE FAR NORTH

Exceptional Offer To Experienced Farmers
Hundreds of Farmers in Western Canada are looking for an opportunity to purchase a farm of their own in the district where good crops are the rule and the exception.

To prevent the movement of a number of Canada's best farmers and trappers to our cities and to the United States, the British Dominions Land Settlement Corporation is pleased to do its share in providing an opportunity for experienced farmers to take up rich fertile lands in Central Alberta under their own settlement plans.

250,000 ACRES OF GOOD FARM LANDS
The Corporation owns over a quarter of a million acres in the most fertile and best farming areas of Central Alberta. The land in East and West of the City of Edmonton. The land is rolling and partially grazed with scrub and brush interspersed. The soil over a large area is a heavy black loam with clay sub-soil. Water is plentiful, and wood for fuel and erection of log buildings is within easy reach. No better land for mixed farming is available for settlement in Western Canada.

LOOS FOR BUILDINGS
The Corporation is now having several thousand logs cut in suitable lengths, peeled and stacked ready for building purposes. These logs are of reasonable diameter of the farms offered for sale, and can be purchased at cost on five years' credit.

WE WILL FINANCE YOU
The British Dominions Land Settlement Corporation has a capital of £750,000 (or approximately \$1,750,000). The Company has a strong British and Canadian Directors, who are anxious to assist in the successful settlement of Western Canada with progressive farmers.

The Corporation is prepared to assist in re-establishing farmers possessing stock and equipment which is free or is practically free, from lien or security, providing they are men of character and farming experience. The land is offered at prices averaging from \$10 to \$15 per acre. The terms provide that no payment of principal shall be made the first three years—interest and taxes at 6 per cent. The Corporation will advance the balance of the purchase price, which it owns free of debt, but not to exceed \$500, to assist the farmer in erecting the necessary buildings and purchasing the necessary equipment. The Corporation also advances the necessary funds for the settler's wages during the first twelve months. The advance interest is repaid by the settler's wages during the first twelve months. The advance interest is repaid by the settler's wages during the first twelve months.

Experienced Farmers, Married, With Families, Possessing Some Capital
To start farming on the Corporation's lands, a capital of approximately \$750.00 is required. The Corporation is prepared to advance the balance of the purchase price, which it owns free of debt, but not to exceed \$500, to assist the farmer in erecting the necessary buildings and purchasing the necessary equipment. The Corporation also advances the necessary funds for the settler's wages during the first twelve months. The advance interest is repaid by the settler's wages during the first twelve months.

WRITE US TO-DAY — OR COME AT ONCE!
Farmers who also advance their own funds and communicate at once with the manager of the Corporation at Vermilion, Alberta, for immediate service.

Address All Communications to W. T. BADGER, Manager British Dominions Land Settlement Corporation LIMITED

Revised Estimate Of Loss
Damage In Fort William Fire Now Put At \$2,275,550

The revised estimate of the damage from the fire at number three freight shed at Fort William, given out by the Canadian Pacific Railway Company, reduces the amount of the loss considerably below the first estimate. The total loss will be \$2,275,550, of which \$262,000 is accounted for by the binder twins. The loss of the freight shed is less than anticipated, being out at \$225,000, while the iron and steel work of the destroyed car is all salvaged in good condition, reducing the loss on cars to about \$16,000.

SAVE THE CHILDREN
Mothers who keep a box of Baby's Own Tablets in their homes may feel that the lives of their little ones are reasonably safe during the hot weather. Baby's Own Tablets reduce fever, relieve colic, and prevent the accumulation of these most serious ailments. Risks should not be taken even with colic, however. Though they are cleaner than notes, it would be very foolish to put them in your mouth—in some people do in order to ascertain whether they are genuine or not.

Compared with Englishmen, Scotsmen and Welshmen, the Irish have the largest heads.

Disease In Paper Currency
Metal Colours Much More Sanitary Says Bacteriologist

A famous bacteriologist has declared after careful investigation that metal colours are much more sanitary than paper currency. On a note that had been in circulation for some time, and was subjected to frequent handling, as many as 142,000 bacteria were discovered. Metallic coins show a far smaller bacteria count. Their smooth surface does not encourage the accumulation of these minute organisms. Risks should not be taken even with colic, however. Though they are cleaner than notes, it would be very foolish to put them in your mouth—in some people do in order to ascertain whether they are genuine or not.

Compared with Englishmen, Scotsmen and Welshmen, the Irish have the largest heads.

PIMPLES ITCHED ALL THE TIME

Face and Arms Covered. Could Not Sleep at Night. Cuticura Heals.

"My face and arms were covered with pimples and blackheads. The pimples were hard and red and would not go away. They itched and burned all the time, and I could not sleep at night. My face looked so badly that people talked about it."

"I read an advertisement for Cuticura Soap and Ointment and sent for a sample. After using it I got relief. I was completely healed in two weeks. I was completely healed in two weeks. I was completely healed in two weeks."

Clear the pores of impurities by daily use of Cuticura Soap with touches of Cuticura Ointment as needed to soothe and heal. Cuticura Talcum is fragrant and refreshing.

Write to J. C. Cuticura, Lowell, Mass., for full particulars. Send for sample. Send for sample. Send for sample.

RATEPAYERS SHOULD

WAKE UP!

The secretary-treasurer of Blairmore School District No. 628 has received upwards of 100 applications to fill the thirteen vacancies created through the dismissal of a staff because of their standing faithfully by the principles of their union, the Alberta Teachers' Alliance.

Acting upon the advice of the chairman of the Board, the secretary-treasurer refuses to allow us as a ratepayer or a representative of the ratepayers to see these applications or to have a list of the appointments made. This is information that the ratepayers are entitled to.

Several meetings of the Board have been held during the week. Applications have been given consideration and some choices have been made. In quite a few cases, however, the applicants when notified of their appointment have wired back refusal to accept the positions. Now the Board is being confronted by an unexpected problem. The Alliance secretaries of both Alberta and Saskatchewan are in close touch with all the teachers in their jurisdiction and are managing to offset most of those who have made applications to supplant a staff who are trying to maintain a just right.

It is time the ratepayers should wake up to the issue and see that the old staff be given the privilege of abiding by the principles of the organization they have pledged themselves to maintain.

In writing the deputy minister of education, the chairman and secretary of the local school board might have gone so far as to state that the actions of the board were contrary to the wishes of the majority of ratepayers. This would have been absolute fact and might have elicited a different "my opinion."

In advertising for a staff of teachers, the local board did not have the good principle to state the reason for the vacancies, but leave that until they are to notify teachers of their appointment. Such action is causing no small amount of inconvenience to teachers desirous of securing positions and may be the means of some teachers failing to be placed by September 1st.

MIGRATORY BIRDS CONVENTION ACT

A summary of the Migratory Birds Convention Act is given below. This is the law which is based upon the treaty with the United States. Any enquiries concerning this law may be addressed to the Commissioner of the Canadian National Parks, Department of the Interior, Ottawa.

Open Season, Both Dates Inclusive
Saskatchewan—Ducks, Geese, Rails, Wilson or Jack-snipe, Black-bellied and Golden Plovers and the Greater and Lesser Yellowlegs—September 15th to December 31st.

Alberta—Ducks, Geese, Rails, Wilson or Jack-snipe, Black-bellied and Golden Plovers and the Greater and Lesser Yellowlegs—September 15th to December 14th.

Closed Seasons

There is a closed season in the provinces of Saskatchewan and Alberta on band-tailed pigeons, swans, wood duck, elder duck, cranes, curlew, willet, godwits, upland plover, avocets, dowitchers, knots, oystercatchers, phalaropes, stilts, surf-birds, terns, and all the shore-birds not provided with an open season in above schedule.

J. E. UPTON == Your Home Tailor

There is a closed season throughout the year on the following non-game birds: Auklets, auks, bitterns, fulmars, gannets, grebes, guillemots, gulls, herons, jaegers, loons, murrelets, petrels, puffins, shearwaters, and terns; and there is a closed season throughout the year on the following insectivorous birds: Bobolinks, catbirds, chickadees, cuckoos, flickers, flycatchers, grosbeaks, hummingbirds, kinglets, martins, meadowlarks, night hawks or bull bats, nuthatches, orioles, robins, shrikes, swallows, swifts, tanagers, titmice, thrushes, vireos, warblers, waxwings, whippoorwill, woodpeckers and wrens, and all other perching birds which feed entirely or chiefly on insects.

No person shall kill, hunt, capture, injure, take, or molest migratory game birds during the closed season. Sale of these birds is forbidden.

The killing, capturing, taking, injuring or molesting of migratory insectivorous and migratory non-game birds is prohibited. The possession of legally migratory game birds is allowed in Alberta until March 31, following the open season, and in Saskatchewan until the last day of February following the open season.

Daily Bag Limits

Saskatchewan—Ducks and geese, 30 of all kinds in one day and not more than 200 of all kinds in a season; rails, 25; black-bellied and golden plover, greater and lesser yellowlegs, 15 of all kinds; wilson snipe, 25.

Alberta—Ducks, 30 in one day and not more than 200 of all kinds in a season; geese, 15; rails, 25; black-bellied and golden plover, greater and lesser yellowlegs, 15 of all kinds; wilson snipe, 25.

Guns and Appliances

The use of automatic (auto loading), swivel, or machine guns, or battery, or any gun larger than number 10 gauge is prohibited, and the use of any aeroplane, power boat, sail boat or night light, and shooting from any horse-drawn or motor vehicle is forbidden.

The shooting of migratory game birds earlier than one hour before sunrise or later than one hour after sunset is prohibited.

Penalty

Every person who violates any provision of this Act or any regulation shall, for each offence, be liable upon summary conviction to a fine of not more than three hundred dollars and not less than ten dollars, or to imprisonment for a term not exceeding six months or to both fine and imprisonment.

The following notice appeared in a Kansas paper recently: "Positively no more baptizing on my property. Twice in the last month my gate has been left open by Christian people, and I can't afford to chase cattle all over the country just to save a few sinners."

SAVINGS CERTIFICATES

POPULAR

More provincial savings certificates were sold in the first six months of this year than in any full year previously, even including the big record year of 1920. This is indicated in the report of the treasury department up to the end of June, for which half-year period the total sales amounted to \$1,401,600. Withdrawals during the spring months were heavy, as is usually the case during crop seedling time, but there is now close to \$7,000,000,000 outstanding in savings certificates. Since the Alberta savings scheme was inaugurated in 1917 there has been a total sale of \$26,561,296, a large part of which has been taken up by investors within the province.

On account of the Elks' Carnival, which is being held in the Arena on Friday and Saturday nights, there will be no dance in the Lodge Hall on Saturday night, July 25th. A big time is assured at the Arena and everybody will be there.

Here and There

Conditions in the fruit areas of British Columbia are reported as satisfactory. Weather conditions have been good and the trees are healthy.

According to recent reports general conditions in the Maritime Provinces are normal. Potato seeding is about complete. Trees in the Annapolis-fruit districts are in good shape and estimates point to a normal crop.

A consignment of lumber from South Westminster, B.C., arrived recently at Dorval, Quebec, on the Canadian Pacific line, consisting of twenty-nine logs of Douglas Fir, some of which were so long that three flat-cars were required to carry them.

Tony McKinley, provincial organizer for the Order of Elks, started this week on the organization of a branch lodge at Claresholm. Lodges have lately been instituted at Granum and Staveland. McKinley expects to start big time is assured at the Arena and everybody will be there.

For the first time in the history of Canada upwards of three thousand redskins from the four western provinces and Montana journeyed to McLeod, Alberta, early in July, and held an all-Indian celebration and formed a league of plains Indians. Five thousand white people attended the ceremony and watched the Indians stage their spectacular mounted war-dance.

Deep gratification is felt in Canadian Pacific Railway circles over the receipt of the following telegram sent to President E. W. Beatty by His Royal Highness the Prince of Wales:—"Umvuma, South Africa, July 2nd.—Have just heard of Mr. Howard's death. Please convey to relatives my deepest sympathy. (Signed) Edward P." The late Mr. W. B. Howard was twice in charge of the Prince of Wales' train when His Royal Highness travelled over Canadian Pacific lines.

The Wayne locals of the U.M.W. of A., after waiting three weeks for President Sherman to straighten out matters, if that were possible, held a meeting and decided to send all charters, seals and belongings of the United Mine Workers of America to the district office at Calgary.

THE FIRING BOARD

The following editorial contained in a recent issue of "America," a Catholic educational magazine, should be of very great interest to the ratepayers of Blaimore School District right now!

"I know of no class of public servant who deserve more and get less than the teachers in our public schools. Generally underpaid and frequently overworked, they form a pathetic and appealing group. Dock-wallopers may organize for mutual protection, and so may street cleaners and scrubwomen, but not teachers, in the opinion of some unreasonable and unprincipled boards. They are worms that do not dare to turn. To organize, and by organization I mean an association free from the dictation of boards and officials, is not 'professional.' More to the point, it is unsafe. Nor can they declare a strike, and for several reasons, of which the chief is that a strike would not improve their condition. Teachers are cheap, and in an emergency can be easily secured. Teachers who call their souls their own generally discover that the board which hires is the board which fires, and the dismissal is apt to come under circumstances which preclude the possibility of an engagement elsewhere. If all this is not true in your town, then you are living in a singularly happy village, or in a community in which tenure of office is the accepted rule.

"For once, then, I find myself in accord with the national education association, which at its recent meeting in Indianapolis pledged itself to secure the extension of the tenure-of-office rule throughout the country. More than once have I written in these columns that if the association could eschew politics to devote itself to the interests of the teachers in the ranks, it would deserve the thanks not only of the teachers, but of all friends of public education. For as matters now stand in a majority of States, teachers are underpaid and without assurance that they will be retained from year to year in the positions which furnish them with their slender pittance. Teaching is a profession, I suppose, but I know of no profession which submits to conditions so humiliating. It is literally true that in most communities the teacher may be 'fired' with less ceremony than is deemed requisite in dismissing an unsatisfactory cook; for in these days your cook is filled with the pride of place, she demands recognition and secures it, or you go hungry. I can hardly find it in my heart to blame the teachers. It is very well to talk of proper pride, but if a mother or brother or sister is

teep, and if any new arrangement is arrived at, the new contract, embodying the new terms would then supplant the previous contract."

The above signed by the Deputy Minister of Education, clearly shows that the Board does exactly what they should have done.

I have no desire to enter into any controversy here, the only purpose of this letter is to give the ratepayers a bit of real facts, which, hitherto, you have purposely denied them.

And you must (with two or three other individuals) accept full responsibility for any inconvenience or hardship that the old staff of teachers may be put to. If you had any grudge against the old teachers and were seeking revenge, you could not have gone at it in a better way than by the stand you have taken.

Yours truly,

L. DUTHIE,
Chairman, Blaimore School District.
As to the inference that the old staff of teachers may suffer inconvenience or hardship because of our stand, we might state that they will have no occasion to suffer, but rather the individual members of the local school board and the school district will eventually be the sufferers.

dependent upon your humble efforts, you will thank God for the submission which permits you to stand up against the slings and arrows of an outrageous board without a murmur. Yet what standards can be maintained in a profession when its members assume the attitude of the hungry pup who beseeching eyes the bone in your hand and keeps four legs ready for instant flight should the bone prove to be a rock to be hurled at his head? Teachers are 'fired' because a board member's relative or friend must be placed; because a nationalistic element must be placated; because they are Catholic, Protestant or Jews; because the Irish are getting too uppish anyway; because they are not of a certain political faith; because of their standard of living or diet; because of reasons which would make any typewriter blush were I to write them; because, as in a case which comes to my notice, they had offended the chairman the secretary or some member of the school board. In brief, teachers are 'fired' for a thousand reasons, not one of which has any connection with the welfare of the children or of the schools.

"All this is not a theory peculiar to myself, but an indictment fully sustained in the report of a special commission appointed by the association to investigate the tenure-of-office rule. For some years the annual turnover has ranged from fifty to seventy per cent, which means that out of every ten public school teachers, from five to seven are turned adrift at the end of the scholastic year. This does not make the profession attractive. It does not, and when it is remembered that not a few of these teachers are dropped without cause, without warning, and in a manner which may make an engagement in another community impossible, the picture grows darker. Indefinite tenure, research has shown, tends to decrease turnover and to increase the stability of the profession. It protects the great body of good teachers from political attack, and from removal for personal or political reasons in spite of competent teaching. The absence of such protection of tenure opens the way for the workings of a political spoils system. A sound tenure-of-office law would provide for easy dismissal of incompetent or insubordinate teachers. It encourages professional growth, as the records of some States where tenure laws have long been in force show.

"Tenure of office does not mean, as need hardly be said, that once appointed death alone can dislodge the teacher. It means standards of admission to the profession, including, where necessary, examinations and a period of probation, at the satisfactory conclusion of which the candidate receives an appointment to be continued on good behavior. It destroys the political school board and secures the teacher against removal for political or personal reasons."

French Canada Celebrates Its History

June 24th of every year is the great day of the French-Canadian in every city and every hamlet of Quebec Province and in the cities and centres of the New England States and in those parts of Ontario and the West where he has migrated. St. Jean Baptiste Day is never overlooked. It is well that it should be so and it introduces into Canada an

Old-World, seventeenth century atmosphere that Canadians as a whole could ill afford to lose, either artistically or historically. Our pictures show some interesting features taken from floats exhibited on this occasion. There is the heroic 17th century farmer defending gun in hand his crops which his father and women folk are reaping. The

children on their way to school watch the housewife baking her bread in the old-fashioned oven which is still in extensive use in Quebec Province. The making of maple sugar, an industry developed from the researches of Dr. Garraut in 1686, is yet another popular float which always figures in the celebrations.

Sometime! Why not this time?

ROSE TEA "is good tea"

The ORANGE PEKOE is extra good. Try it!

An Empire Problem

Conditions throughout Canada have been steadily improving for several months past and present prospects are for a continuance of that most desirable state of affairs. Industrial activity is increasing and the number of unemployed is smaller than for some years, and the prospective harvest gives promise of requiring the labor of every available man, and that the railways will be busy and fully staffed throughout the Fall and Winter months in handling the resultant traffic. Merchandising is still rather slow because people have learned from past bitter experience not to count their chickens before they are hatched. Manufacturers are, however, gradually increasing their output in anticipation of substantially increased business.

The general upward trend is indicated by an increase of five million dollars in the first six months of the year in the construction of new residences and of four million dollars in industrial buildings. Prompt payment of taxes and of mortgage loans, both as to principal and interest, are other signs of the betterment taking place.

There is less talk of Bolshevism and advocacy of half-baked communist ideas and a more general appreciation of the fact that in this age, as in all past ages, only by and through work on the part of each individual, and the community as a whole, can problems be solved and progress and prosperity be achieved.

The desire for a larger influx of immigrants, especially from the British Isles, is still heard in many quarters based on the now well accepted belief that one of Canada's greatest needs is population. But while the outlook is promising in Canada, it is not so in Great Britain. Ordinarily, it would be thought, that this would result in that larger immigration which is desired, but, actually, the reverse is true.

During the war when it became vital to the Empire's security and the winning of the war to speed up production to the maximum, notwithstanding the absence of millions of men under arms, improved machinery and labor saving devices and methods of all kinds came into practical use, with the result that production was enormously increased. Today a large volume of production can be maintained with a smaller working force. In June last unemployed in the British Isles numbered 1,291,000, or more than a quarter of a million more than in June, 1924. When the families dependent on these men are taken into consideration, it will be realized what a large percentage of the people are without a fixed means of livelihood.

To meet this situation a system of doles was established and has been in effect for some years now. The unfortunate effect has been that tens of thousands of people are now content to live in idleness on these doles rather than accept work when it is offered, while those who are working, and paying heavy taxes to provide these doles, are asking why they should labor hard to support those others in idleness. In a word, the dole system is breaking the morale of the people.

Observers and close students of conditions in Britain find that this dole system is discouraging thousands from immigrating. They prefer to accept the dole, and do nothing, rather than face the possibilities in a new land and the absolute necessity of hard work under new and untried conditions.

Great Britain is over-populated and becoming more so. There is not work for all and no present prospect of it. Industry is hindered in carrying larger staffs of employees than are actually needed, and, faced with active competition from other countries, and carrying a huge burden of war debt, the outlook is not bright. Unfortunately, too, owing to this lowered morale, a percentage of those who immigrate do not display the necessary stamina to succeed here and write letters home depicting conditions here as worse than in Britain and stating the wishes they had not emigrated. "I wish I had stayed in Canada," is the cry of many, and in the desire of our people that it shall be, as far as possible, British-born, is imposing severe restrictions on the entry of people from other lands, while waiting and hoping for the British people who will not venture, but prefer to idle at home and live on doles which sooner or later must end or bankrupt the country.

It is a real Empire problem. Canada does not want idlers and will not welcome them. The Dominion requires workers, and to those able and willing to work a cordial reception will be extended and for them there is every prospect of success. In fact it is assured to the extent that anything can be assured. But this country will never establish a dole system. The unfortunate through sickness or accident will be cared for, but the I.W.O.'s, no matter what their nationality, will not be tolerated and will have to shift for themselves if they come to this country.

The World's Oldest Bush

According to Dr. Edgar T. Wherry, a box huckleberry bush in Perry County, Pa., is the oldest bush in the world. This remarkable bush is a mile and a quarter long and covers the entire side of a hill. Dr. Wherry estimates that it grows six inches a year. Taking that as a basis, the plant must be something like 12,000 years old.

Ship Baby Chicks

More than 14,000 baby chicks were shipped out this spring from the hatchery of the provincial poultry plant at Oliver, Alberta. They were shipped as far north as Berwin and as far south as Lethbridge.

To Look Over Bay Line

An appeal to westerners to attend one of three trips to be made this summer to Port Nelson to look over the prospects of the Hudson's Bay line has been issued by Mayor Ralph Webb, of Winnipeg. The Regional board of trade received a letter announcing that the trips will be made on August 21, August 23 and September 9, by special trains from Winnipeg.

Their Remarkable Appetite

Sunday School Teacher "Robert, who were the Pharisees?" Bobby: "The Pharisees were people who fasted in public and in secret devoured widows' houses." Boston Transcript.

England's Curio King Dead

Aged Auctioneer Had Handled Many Historic Relics

Mr. Henry Stevens, of Stevens Auction Rooms, King Street, Covent Garden, London, who was probably the oldest practicing auctioneer in England, died at Addlestone, Surrey, at the age of eighty-two.

President Kruger's hat and King Charles's waistcoat were among the many curiosities that came under his hammer.

Mr. Stevens had sold every conceivable thing in his time, from an elephant to an auk's egg and a mummy. He sold the late Lord Derby's great menagerie of more than 1,600 animals and birds, the death mask of Napoleon, a piece of Queen Victoria's wedding cake, the spear that killed General Gordon, and one of Dick Turpin's pistols.

He sold twenty-four out of the known seventy-five auk's eggs in the world, one of these realizations, £682 10s. He also sold many "butterfly" butterflies disposed of for £32.

As a child, Mr. Stevens saw the Duke of Wellington's funeral passing along the Strand on its way to St. Paul's, and he often saw Dickens and Thackeray, who would visit the auction rooms on their way to the Garrick Club.

WORRIES IN THE HOME

It is These That Cause Many a Breakdown in Health

Almost every woman at the head of a home has her worries. They may be too small to notice an hour afterwards, but it is the same little worries that break down the health of so many women. Their effect may be noticed in nervous headaches, backache, indigestion, pains in the side or back, and a sorrowful complexion. To this list of troubles Dr. Williams' Pink Pills, by improving and purifying the blood, bring speedy relief. Among thousands of weak women who have tested and avowed the merits of this medicine is Mrs. Gustave Hatt, Bruxelles, Man., who writes: "I will not wonder that I write to tell you that Dr. Williams' Pink Pills have done for me. Before I began taking these pills, I was weak, and my blood thin and watery. I was so thin that I looked like a skeleton. I was troubled with headaches and indigestion, did not sleep well, and was terribly constipated. I decided to try Dr. Williams' Pink Pills and I soon found that they were just what I needed. Under their use my appetite returned, my food digested properly, and I slept better, ate steadily, and gained in flesh as well as strength. The result is that now I am a perfectly healthy woman, and there is no doubt that it is due to the use of Dr. Williams' Pink Pills, a supply of which I now always keep in the house, and I would advise every woman to do the same."

You can get these pills through any dealer in medicine, or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

An Interesting Ceremony

Unveil Calgary Cairn Commemorating Arrival of R.N.W.M.P. in 1875

The jubilee celebration of the founding of the city of Calgary on the arrival of the Royal Northwest Mounted Police, was marked by the unveiling of a cairn in Central Park. It commemorated the arrival of F Troop, of the Mounties, and Inspector Brails, in August, 1875. The veil was the Union Jack and it was drawn aside by Sir Cecil Denney, only surviving member of the troop.

Judge Hoay, New Westminster, B.C., represented the historic sites and monuments board of Canada at the ceremony. The board presented the cairn to the city.

"Good birth is as greatly to be desired by a community as by an individual, and no city has had a better birth than Calgary, founded by the Royal Northwest Mounted Police," he said.

Minard's Liniment for Neuralgia

Fewer Canadians Going to U.S. A decrease in immigration of Canadians to the United States is indicated by figures in the annual report of the United States immigration commissioner of the Montreal district. Residents of Canada entering the United States for permanent residence during the fiscal year ending June 30, 1925, at border points from Halifax to Cape Vincent, N.Y., totaled at 49,047, as against 74,624 for the last year. Eighty per cent. of the 49,047 were Canadians.

A butcher in a certain town had read considerable about "MIKE from Contented Cows," and wanting to keep up with the times, he placed this sign in his window: "Sausages from Pigs that Died Happy."

High Priced

Bill—So the doctor said you'd have to give up smoking for a while. Tom—Yes, and he said I'd have to give up \$15 for good.

Put Real Mustard in Your Kit

Right at the top of the list of campings needed, ties is a tin or two of real mustard.

Men who fish and men who shoot know what a splendor and flavor mustard freshly mixed with cold water, added to the ham, bacon, fowl, venison and other good things they eat in camp.

Business and the Crops

With Good Prices For Wheat This Fall Conditions Should Improve

The likelihood of a large crop has given rise to an optimistic spirit in western Canada. Recent reports on the crop have been exceptionally favorable. The bumper crop of 1923, which produced some 452,000,000 bushels, was worth only \$295,155,000, while the 1924 crop of 355,000,000 bushels was worth \$285,231,000. It is somewhat difficult at this time to tell how the price of wheat will go this fall. Nothing definite has been known as yet regarding the crop of the United States or other exporting countries, but in the event of an average world supply, the price should be better than that of 1923.

Will Obey Canadian Laws

Doukhobors in B.C. Have Reached Almost Unanimous Decision

Peter Varenko, the younger, recently elected ruler of British Columbia Doukhobors, will within a few days the Russian colonists a policy of rigid compliance with Canadian laws, according to word received at Victoria by Hon. J. D. MacLean, minister of education for British Columbia, following the receipt of letters from them.

The Doukhobors held a big, unanimous decision in an almost unanimous decision was reached to respect Canadian legislation in future.

Your Home Medicine Chest—Among the standard household remedies that should always be on hand in your home medicine chest, none is more important than Dr. Thomas' Electric Oil. Its manifold usefulness in relieving pain and healing sickness is known by many thousands throughout the land. Always use Dr. Thomas' Electric Oil for relieving rheumatic and sciatic pains, treating sore throats and chest, coughs, burns, scalds, cuts, bruises and sprains.

Relations Should Be Improved

Japanese Financiers Anxious Over Curtailment in Canadian Trade

Serious curtailment of trade which has been brought about by the Chinese industrial strikes and internal warfare, are giving rise to anxiety in Japanese financial circles, according to an interview obtained at Vancouver from B. Wright, of Deloro, Ontario, manager of the Deloro Smelting and Refining Co., who arrived from the Orient. Mr. Wright believes there is great opportunity for increases in the export of Canadian wheat and lumber to Japan. "Japanese business men," he stated, "are all of the opinion that relations between the two countries should be improved."

TEETHING BABIES DIE EVERY SUMMER

The hot weather is very hard on babies starting to cut their teeth. On the first sign of any looseness of the lower teeth, the mother should give a few doses of

This will quickly offset the diarrhea, vomiting and purging, and, perhaps save the baby's life.

Put up by T. B. Milligan, Ltd., Limited, Toronto, Ont.

SUNDAY SCHOOL LESSON

JULY 26

THE COUNCIL AT JERUSALEM

Golden Text: We believe that we shall be saved through the grace of the Lord Jesus. Acts 15:11. Lesson: Acts 15:1-36. Devotional Reading: Romans 6:1-9.

The Text Explained and Illuminated. Trouble at Antioch of Syria, verse 1.—As our last lesson stated, Paul reported to the church at Antioch in Syria "all things that God had done with them," and gave as the great result of their work the fact that "God had opened a door of faith unto the Gentiles." When the news reached the church at Jerusalem, they found the door unto the Gentiles too wide also to shut them.

Until Paul took up the work, the Christian churches, like the Jewish synagogues, had been composed of Jews and proselytes, the proselytes being Gentiles who had received the Jewish ritual of circumcision. In attendance at the services there were also the "God-fearing" or "devout" Gentiles, who, not having been circumcised, were not in "full fellowship" with the rest. That God was no respecter of persons Peter had learned of the Jerusalem Church came to Antioch and declared that unless all were circumcised according to the custom of Moses, they could not be saved, thus insisting that Gentiles must first become proselytes before they could become Christians.

The truth, however, had been granted in only a few special cases, and the far-reaching consequences to the Church had not been foreseen. Now a crisis was reached. Certain members of the Jerusalem Church came to Antioch and declared that unless all were circumcised according to the custom of Moses, they could not be saved, thus insisting that Gentiles must first become proselytes before they could become Christians.

Cold on the Chest

Best Treated This Way

When the throat is sore, and the chest is tight and full of congestion, something strong enough to penetrate the tissues must be applied quickly. To reach the quickest results, apply good old Nervine. Rub it in until it works warm or blister, but will bring the blood to the surface, will draw out the inflammation and subside your pain, and make you well in a short time. No other remedy so potent, so strong, so quick to bring relief, so reliable. Nervine is the "Nervine." Nearly fifty years in use, and sold in most countries throughout the world in large 35c bottles.

Wonderful Air Mail Service

New York to San Francisco in Less Than Two Days

One of the most wonderful things in the world is the United States air mail service. It has its equal nowhere for distance down and service rendered. The preservation of fatal accidents in six years of operation has been negligible. Between May 15, 1918, and June 30, 1924, 255,086,000 letters were carried. The number of airmails flown was 9,931,631. No less than 14,678 persons were said to return and for Air Mail operating efficiency was 91.82 per cent. for the six years. With the putting on of the transcontinental service, New York to San Francisco, on July 1, 1924, there was a gain in efficiency.

The elapsed time of flight is between thirty-two and thirty-three hours. Half-hour time ranges from ninety-two to 120 hours. The overland mail used to take twenty-eight days to cross the continent. This was reduced to nine days by pony express. The best time made by mail trains was eighty-seven hours. Most people have forgotten that airmails are carrying mails day and night over the Rockies and across the deserts from New York to San Francisco all through the year but the wonder of it is not lost on those who see the planes rush into the air and speed away or upon others who have been passing in the night, overhead, and witness the end of the long journey completed in so short a time.

Minard's Liniment for Rheumatism

British Students For Canada

To Be Given Courses in Our Agricultural Colleges

Of the 50 scholarships tenable in agricultural colleges of Canada, which the Fellowship of Empire Exhibition is proceeding to allot, 25 already have been allotted to London. The others will be distributed in Scotland and among English provincial districts. Each scholar will be provided with a free passage to Canada, education and maintenance for a year, and will afterwards be found suitable employment on the land in Canada.

No child should be allowed to suffer an hour from worms when prompt relief can be got by a simple but strong remedy—Mother Graves' Worm Exterminator.

Hate to be a Joy Killer, but we doubt if a fly ever got out while the screen door was open.

Minard's Liniment for Sore Feet

PAINTED wall and woodwork regains its freshness with Sally Ann. It never scratches; it's good for hands, too.

The Land of Ophir

Austrian Explorer Says It Is Located in Peru

Ophir, reported in the Bible as the country of gold mines from which the navy of King Solomon brought gold to Palestine, was located in Peru, says Dr. Von Hauch, an Austrian explorer. Von Hauch declares he met in the primeval forests of Peru in the Pampas del Sacramento, 300 members of an Indian tribe of pronounced Jewish appearance, speaking a language similar to Hebrew.

There is a legend current among them, says the explorer, of a land of gold, known as Ophir, situated on the River Hualla, to which, so the legend says, white men came many years ago and carried off large quantities of the precious metal.

Miller's Worm Powders are sweet and palatable to children, who show no hesitancy in taking them. They will certainly bring worms trouble to an end. They are a strengthening and stimulating medicine, correcting the disorders of digestion, the worms cause and imparting a healthy tone to the system most beneficial to development.

Sir Walter Schwabe, K.C., told an amusing story in a lecture. He said: "Mr. Commissioner Kerr, who sat at the City of London Court, said on one occasion, 'David in his haste said that all men are liars; I have sat here for forty years, and I say it is my leisure.'"

STORE PROPERTY FOR SALE

The building and lot known as Lot 4, Block 5, Plan 3319-1, Blaimore, with garage at rear, are for sale; described as follows: 3-story brick building, with patent roof, 20 foot frontage, plate glass windows, full concrete basement, with hot and cold water in three rooms and hall, bath and two water closets. Length of lot 115 feet, of building 75 feet. Store building downstairs is used as a Chinese restaurant. Building is leased for a five year period, with the exception of two rooms and bath upstairs, and garage at rear, at \$125.00 per month.

Owner wishes to sell for—\$6500 Cash—or half cash and terms—

APPLY

J. R. GRESHAM

Major Schoof, of Claresholm, who has just returned from a lecture tour of the States, is now arranging for a patrol of the Waterton Lakes and Crows' Nest districts.

Miss Jean Galloway, who for the past two years has been a member of the Blaimore public school teaching staff, has accepted a position as teacher at Calgary at considerably larger salary than was offered her at Blaimore. While employed at Blaimore Miss Galloway proved to be a most capable and efficient teacher.

The towns of Claresholm and Okotoks have taken up the building of new cement sidewalks.

A chap down in Yuma, Arizona, was recently charged with stealing a Ford car. The evidence showed that all he had taken was four tires, the battery, the generator, one wheel, the starting motor and equipment, the lights, the horn and a rear vision mirror. The judge commended him for leaving so much of the darn thing with the owner and rendered an honorable acquittal.

Fincher Creek's tax rate for 1925 has been set at forty mills.

The town council have gangs at work patching up Victoria Street.

Hexamethylenetetramine is a drug. Pronouncing it correctly might cure lockjaw.

Mr. K. G. Craig was a business visitor to High River and Highwood during the week.

At a meeting of the Board of School Trustees on Thursday night last the mill rate for 1925 was struck at 18.

A new Knights of Pythias lodge was instituted at Okotoks last week, with Dr. Ardiel as chancellor commander.

The party who left a straw hat in the Lodge Hall on Saturday night last can have same by calling at The Enterprise office.

A lawyer seeking a new opening explains that the people in the town where he now practices are too confounded agreeable.

Mrs. Fred Palmer and daughter, Fern, arrived home the latter part of the week after an enjoyable holiday at Lacombe and Sylvan Lake.

The officers of Bellevue Lodge, I. O. O. F., were installed on Monday night last by D.D.G.M. Bro. A. Moroney and a party of past grands from Blaimore Lodge.

Rev. G. D. Armstrong, until recently pastor of the United church at Macleod, had the misfortune while motoring to his new pastorate at Cononaton to break his right arm.

If less attention could be paid to cars travelling without license plates and more attention to cars being overcrowded, fewer accidents and less danger to the public would result.

Owing to the death of his mother, which occurred at Saskatoon on Monday, Hon. Charles Stewart, minister of the interior, was unable to attend the Liberal meeting at Macleod yesterday.

An afternoon tea and sale of home cooking will be held in the Lodge Hall on Saturday, July 25th, from 3 to 6, by the members of Crowview Rebekah Lodge. Come and bring your friends.

The adjourned session of the legislature of Alberta will be called on Monday, August 3rd, to deal with the question of the Peace River railway and other matters. A session of only a few days is expected.

Mr. and Mrs. Frank Wheatley left here on Saturday night last for Edmonton, where Mr. Wheatley is sitting with the coal commission. Mrs. Wheatley will likely remain in the capital for about two weeks.

Through bills being circulated, Doc Barbour is announcing the closing out of his drug store at Hillcrest and is offering a big reduction in practically everything in stock at a sale to be conducted Saturday and Monday.

J. P. O'Neill, who recently had the misfortune of losing an Oldsmobile roadster through collision and fire, has fallen in love with a new Chevrolet coupe. Of course, this is not the first time Mr. O'Neill has fallen in love.

Fred Wolstenholme, of Bellevue, secured the contract to place new flooring in two rooms of the public school and is busy at the work now. At the same time Janitor Warner is busy kalsomining and generally polishing up.

The little town of Bowden, on the Calgary to Edmonton line of the C.P.R., was swept by fire on Friday night last. Five blocks, mostly business places, were wiped out completely, the damage being estimated at close to \$200,000.

Items of Local and General Interest

The Salvation Army will erect a \$35,000 citadel in Edmonton.

John Dicken and Fred Anderson have returned from a brief vacation.

In nature a plum becomes a prune. In politics the prunes frequently get the plums.

Miss Cécile Marquis is the guest of her sister, Mrs. Duthie, in Edmonton, for a few weeks.

A. A. McGillivray, K.C. of Calgary, is spoken of as possible leader of the Alberta Conservatives.

Tony Placek, owner and proprietor of the local Orpheum theatre, has purchased a theatre at Coleman.

Lots of times when a girl thinks a man is admiring her face he is merely wondering why she puts it on so thick.

Mrs. E. Lonsbury, operating a confectionery and bakery store at Coleman, has assigned for the benefit of creditors.

Hon. Charles Stewart has been nominated by the Liberals of West Edmonton to contest that riding in the next elections.

W. J. Lighthouse was fined \$20 and costs for operating a motor truck between Okotoks and Black Diamond without a chauffeur's license.

Miss Mildred Passmore left on Tuesday night's train for Vancouver, via Calgary. Miss Passmore expects to be away about two months.

The local Oddfellows and Rebekahs are arranging a picnic to be held on Wednesday, July 29th. Further particulars as to place, etc., will be announced later.

Miss M. T. Davis, formerly of the Blaimore teaching staff, has accepted a position with the Nanton public school. Miss Davis is now attending Summer School at Edmonton university.

We have on our desk a copy of Volume 1, No. 1, of The Western News, a new weekly paper being published in Edmonton. The Western News claims to be independent in politics.

Sergeant and Mrs. Duncan and children left this morning on a brief vacation, motoring to Banff via the scenic Banff-Windermere-Cranbrook route. They expect to be away a week or more.

Much sympathy is expressed by all friends of Hon. Charles Stewart, minister of the interior, with him in the sad bereavement he has suffered through the death of his mother, Mrs. Stewart, who died at Weyburn, Saskatchewan, on Sunday last. Mrs. Stewart was eighty-three years of age.

"Tommy" Floyd is now operating a Brewster taxi at Calgary.

Mr. J. E. Gillis attended the Liberal convention at Macleod yesterday.

Fernie Elks are holding a Kiddies' Day for all children on Wednesday, August 5th.

The bearded lady of Ringling Brothers' circus recently died on Staten Island, leaving a wife and five children.

If you get in trouble with the police or courts, remarks an exchange, it pays to be something big like a bank director.

The corner stone of a new Lutheran college, to cost a quarter of a million dollars, was laid in Edmonton last week.

Mr. Gillis, president of the new Coleman Local Union, was a business visitor to the northern part of the province this week.

Any man seeing any woman at any party, and seeing her again before breakfast the morning after, can't help believing anything about evolution.

Taxis for two may soon be seen on the streets. As the girl of the future will say when she meets her fiancé: "It looks as though mother will have to walk!"

Russell Scott, a wealthy Canadian promoter, will hang tomorrow, unless his brother Robert surrenders and confesses implication in the holdup and murder.

Your attention is drawn to the Special Bargain attractions in the F. M. Thompson Co's special Elk window. These specials include men's and boys' leather footwear.

The Western News, of Edmonton, goes so far as to say that W. A. Buchanan, of The Lethbridge Herald, will be appointed to the Senate, to succeed the late Senator DeVeber.

Miss Janet Nicol, of Edmonton, rendered "Nearer My God to Thee," at the Presbyterian church on Sunday evening last. Miss Nicol's solo was much appreciated.—Lindsay Province.

Rumor has it that a member of the local detachment of the A.P.P. is to forsake single blessedness and join the band of less fortunate some time next month. Our sympathy is extended, brother.

The Grand Lodge of the Knights of Pythias meets in annual session at Calgary on Tuesday next. The local Pythian Sisters will be represented by Mrs. J. Wolstenholme, while W. J. Bartlett will represent Livingstone Lodge No. 22. At this session, Bro. Jack Woods, of Coleman, is in the running for grand chancellorship.

are always acceptable. We do not remember ever showing you a better assortment of
JEWELRY AND SILVERWARE
and we are sure such quality was never sold so reasonably. Of the many appropriate things our stock suggests are watches, brooches, bracelets, rings, match boxes, match pins, etc. Of course we have many beautiful pieces of silverware that anyone would be pleased to receive.**S. TRONO**

Make Haste Slowly

EVEN a genius must lay his bricks one at a time. And just so, health is built. You can't take a health-hurdle that lasts you through life. You must build health one meal at a time.

STAR BREAD
—Is the most important food at each of those meals. It gives the maximum of pure nourishment in most delicious form. Always fresh, crisp, tempting.
